JAZARTEC

AUTOMATIZACIÓN INDUSTRIAL

JAZARTEC SLU
BAILÉN (JAÉN), SPAIN
REGIONS: SPAIN, LATIN AMERICA AND THE UNITED STATES

Industrial automation engineering and remote support

Automation services delivered mainly remotely from Spain for plants in any country, with on-site visits for commissioning when needed.

SERVICES

Remote automation support

- Troubleshooting and fixing PLC and SCADA issues
- Changes to existing logic
- Preventive maintenance of control systems
- Improvements to running installations

Projects and expansions

- New PLC and SCADA development
- Line expansions and modifications
- On-site or remote commissioning
- PMP project management: scope, schedule and risk

Electrical engineering

- Electrical schematic design and review
- Electrical and control panels
- Electrical fault finding and repair

AVEVA System Platform consulting

- Application development
- Maintenance of existing applications
- Version migrations

TECHNOLOGIES

PLC **Rockwell Automation / Allen-Bradley**
Programming, changes and online troubleshooting in Studio 5000.

SCADA **AVEVA System Platform**
Application development, maintenance and version migrations.

PROCESS **GEA Codex**
Process control systems in food and beverage plants, with a working knowledge of the process they control.

MANAGEMENT **Project Management Professional (PMP)**
Planning and control of scope, schedule, cost and risk following PMI standards.

INDUSTRIES

- **Food and beverage**: Filling, CIP, Batching
- **Water supply**: Network SCADA, Water supply

WHY JAZARTEC

- Experience on both sides
- Direct contact with the engineer
- PMP-certified project management
- Process knowledge, not just PLC code
- From the electrical panel to SCADA
- Secure remote access
